

BUILDING PRODUCTS OF CANADA CORP.

PRF-19-171-E

COMMUNIQUÉ

Date: January 10th, 2019

To: All Eastern Customers, Canada and USA

Subject: Modification to the number of bundles of shingles per pallet

Dear Customer,

For some time, BP has been working diligently to reduce its environmental footprint. We have completed a series of energy savings projects across our operations. As such, our LaSalle and Edmonton plants have reduced waste by almost half. Our Edmonton plant operates a paper-recycling depot; on a yearly basis, the depot collects thousands of tons of waste paper used in the production of felts and chipboard. BP is also a supporter of government and industry eco-ENERGY standards and programs.

In pursuance of our commitment, we are modifying the way we stack our shingles on pallets. Going forward, pallets of our popular Mystique 42 and Everest 42 laminate shingles will hold 48 bundles instead of 36 bundles. Pallets of 3-tab Yukon SB and Dakota will hold 48 bundles instead of 40. As a result, this will substantially reduce the number of pallets required.

The new pallets will become available as the inventory of current product is depleted. For now, Manoir and Vanguard 42 IR shingles are unaffected by this change.

To help you manage the change in your yards, new product codes and UPCs have been created and the new pallets will receive new labels with those codes. You will find below the new codes and UPCs for each SKU affected along with an important notice to be transmitted the yard personnel.

To protect the integrity of the shingle bundles, the new pallets should not be stacked more than two high.

Should you have any questions, please do not hesitate to contact your local Building Products of Canada Corp. sales representative.

Thank you for your continuing support.

BUILDING PRODUCTS OF CANADA CORP.

BUILDING PRODUCTS OF CANADA CORP.

IMPORTANT NOTICE (To the attention of yards personnel)

- Everest 42 and Mystique 42 shingles pallets now hold 48 bundles instead of 36 bundles, 12 rows of 4 bundles.

- Yukon SB and Dakota shingles pallets hold 48 bundles instead of 40, 12 rows of 4 bundles.

Important : Do not stack more than 2 pallets high
